

Slip Fees for Summer Boating Season 2020

To Timbrshor participating Members

May 13, 2020

Dear Members,

The fee for boat slip fees for boats are \$600 for the season and for personal watercraft \$300 for the season. The fees have increased from last year, as part of a two-year plan by the Dock Committee and Board to keep the fees lower 2019, and raise them in 2020 to fund the addition dock repairs. Timbrshor is building the Boat Dock fund for to cover the cost of aging infrastructure and additional boat slips.

I included in my earlier email of April 22 Jim Cole's outline of the immediate work we are now doing. Which includes repairs to the sea wall and launch ramp, remediation work on the walkway leading to the western marina, and replacement of the entire sundeck. The replacement of the bumpers and stringers on the seawall is under way; the cement work will have to wait until the water goes down again. The work on the walkway and sun deck will begin on May 25th and will be finished by June 15th. We are able to move the building forward. We have obtained seven permits from three different Government Agencies. Thank you Jim Cole and Dock Committee, getting to this point was difficult.

Please sign and return the included documents along with your checks to secure you slip leases for the season.

Thank you and look forward to seeing at the Lake!

Blake
